Portfolio

CAREER OBJECTIVE/ SUMMARY

EEE undergraduate with a strong interest in Software Development and Full-Stack Web Development. Experienced in building responsive web applications using React, Node.js, Express.js, and MongoDB. Strong foundation in problem-solving, REST API development, and modern web technologies, with a passion for continuously learning and building impactful software solutions.

Education

- Darbhanga College Of Engineering, Darbhanga 2024** -2028
B-Tech in Electrical and Electronic Engineering CGPA: 8.95
- Sri Shankar Inter School Rasalpur, Samastipur** -2023
Intermediate - Bihar School Examination Board Percentage: 86.2
- Lakshya International Academy, Bardiha, Vaishali** -2020
Matriculation - Central Board of Secondary Education Percentage: 74.8

PROJECTS

- ConnectX – Full Stack Video Meeting Platform** June 2026 - Present
– Developed a full-stack real-time video meeting platform with secure JWT-based authentication.
– Built RESTful APIs for creating, joining, and managing meeting rooms.
– Implemented responsive UI, protected routes, and real-time communication for seamless collaboration.
– Tools & Technologies used: React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Bcrypt, Axios, REST APIs, Git, GitHub.
- Blogify – Modern Blogging Platform** Feb 2026
– Developed a responsive blogging platform that enables users to create, edit, delete, search, and organize blog posts through a clean and user-friendly interface.
– Tools & Components used: HTML5, CSS, JavaScript, Local Storage, File API, DOM Manipulation, Git, GitHub
- HabitFlow – Smart Daily Habit Tracker** Jan 2026
– Developed a responsive habit tracking web application to help users build and maintain daily routines through an intuitive interface.
– Implemented habit creation, editing, deletion, search, filtering, real-time digital clock, and progress tracking with persistent data storage using Local Storage.
– Tools & Technologies used: HTML5, CSS3, JavaScript (ES6), Local Storage, Git

TECHNICAL SKILLS and INTERESTS Programming

Languages: JavaScript, TypeScript, C++, C

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSockets

Database: MongoDB, Mongoose

Tools & Technologies: Git, GitHub, Axios

Currently Exploring: Generative AI, LLMs, Prompt Engineering

Languages: English (Fluent), Hindi (Native)

Innovations

- ❖ **Mosquito Repellent Machine** 2025
– Designed and developed a working prototype of an eco-friendly mosquito repellent machine for chemical-free mosquito control.
– Successfully pitched the idea in college (on startup cell), SIH and many hackathons.
– Demonstrated practical and real-world applications.

Achievements

- Google Student Ambassador — Google (2026)
- National Finalist – MY Bharat Budget Quest 2026 (Selected among 12+ lakh participants)
- 3rd Position – District Level Innovation in Science & Technology Competition (2025)
- 2nd Position – Inter-College Wall Painting Competition
- 3rd Position – College Wall Painting Competition
