CAREER OBJECTIVE/ SUMMARY

EEE undergraduate with a strong interest in Software Development and Full-Stack Web Development. Experienced in building responsive web applications using React, Node.js, Express.js, and MongoDB. Strong foundation in problem-solving, REST API development, and modern web technologies, with a passion for continuously learning and building impactful software solutions.

Education

- | | |
|--|--------------------------|
| Darbhanga College Of Engineering, Darbhanga
<i>B-Tech in Electrical and Electronic Engineering</i> | 2024 -2028
CGPA: 8.95 |
| Sri Shankar Inter School Rasalpur, Samastipur
<i>Intermediate - Bihar School Examination Board</i> | 2023
Percentage: 86.2 |
| Lakshya International Academy, Bardiha, Vaishali
<i>Matriculation - Central Board of Secondary Education</i> | 2020
Percentage: 74.8 |

PROJECTS

- | | |
|--|---------------------|
| ConnectX - Full Stack Video Meeting Platform
– Designed secure authentication, meeting management APIs, and a responsive dashboard following REST architecture. Built JWT-based authentication, protected REST APIs, and MongoDB-backed meeting management with a responsive dashboard.
– Tools & Technologies used: React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Bcrypt, Axios, REST APIs, Git, GitHub. | June 2026 - Present |
| Blogify - Modern Blogging Platform
– Developed a responsive blogging platform that enables users to create, edit, delete, search, and organize blog posts through a clean and user-friendly interface.
– Tools & Components used: HTML5, CSS, JavaScript, Local Storage, File API, DOM Manipulation, Git, GitHub | Feb 2026 |
| HabitFlow - Smart Daily Habit Tracker
– Developed a responsive habit tracking web application to help users build and maintain daily routines through an intuitive interface.
– Implemented habit creation, editing, deletion, search, filtering, real-time digital clock, and progress tracking with persistent data storage using Local Storage.
– Tools & Technologies used: HTML5, CSS3, JavaScript (ES6), Local Storage, Git | Jan 2026 |

TECHNICAL SKILLS and INTERESTS

Programming Languages: JavaScript, TypeScript, C++, C

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSockets

Database: MongoDB, Mongoose

Tools & Technologies: Git, GitHub, Axios

Currently Exploring: Generative AI, LLMs, Prompt Engineering

Languages: English (Fluent), Hindi (Native)

Innovations

- | | |
|--|------|
| Mosquito Repellent Machine
– Designed and developed a working prototype of an eco-friendly mosquito repellent machine for chemical-free mosquito control.
– Successfully pitched the idea in college (on startup cell), SIH and many hackathons.
– Demonstrated practical and real-world applications. | 2025 |
|--|------|

Achievements

- National Finalist – MY Bharat Budget Quest 2026 (Selected among 12+ lakh participants)
- 3rd Position – District Level Innovation in Science & Technology Competition (2025)
- 2nd Position – Inter-College Wall Painting Competition
- 3rd Position – College Wall Painting Competition
